

FREE EDUCATION FOR ALL

Education is critical to individual survival and civilized human values, but U.S. capitalism is dismantling public education.

Register and Vote Peace and Freedom Party

www.peaceandfreedom.us

You can register to vote if you are a U.S. citizen, not in prison, and will be age 18 on the day of the next election.

The Peace & Freedom Party calls for:

- Tuition-free higher education for all (including trade schools).
- Democratically run schools.
- Equal funding per student in every public school district. Unequal funding perpetuates racism, crime, and inequality.
- No “Charter” schools - they undermine public schools.
- No school voucher schemes.
- Up-to-date schools and equipment.
- Smaller class sizes.
- Extra funding for students with special needs.
- Teach the history of worker’s struggles, and labor’s creation of society’s wealth and progress.
- Multi-lingual and multi-cultural education at all school levels.
- Full education rights for all resident non-citizens.
- Accurate sex education courses in public schools.

Other important issues for students:

- A guaranteed, dignified income for all, including students.
- Massive development of free public transportation.
- Free, high-quality health care for everyone.
- Expand bike routes.
- Improve public library services.
- Resident non-citizens should have the right to vote in local school elections.
